

GRANT A WISH

2019-2020 EPSF Classroom Grant Program- Sagewood Wish Request

School	Grant Name	Description	Requestor	Grade	Amount
Sagewood Elementary	<u>ClearTouch Interactive Panel</u>	My current technology for accommodating the kindergarten curriculum has failed. It has been determined that the projector formerly installed in my classroom is not feasible for repair; therefore, I have been equipped with a borrowed projector for the time being. Technology is a vital component in all facets of daily kindergarten instruction. The suggested replacement for the projector is the ClearTouch Interactive Panel-70'-6070U. I feel this will allow my instruction to be relevant to the needs of kindergarten learners. As well as offering students the utmost benefits of the curriculum components. Since some of the components include video clips, song accompaniment, and projectables not offered for individual consumption.	Bridget Thompson	K	\$4,200
Sagewood Elementary	<u>ClearTouch Interactive Panel -70"</u>	Having the ClearTouch Interactive Panel would be beneficial to the instruction of the Elkhorn Curriculum and curriculum provided by the district. It would allow me to be a better teacher and use technology for our required based technology curriculum.	Lauren Bogdanoff	K	\$4,200
Sagewood Elementary	<u>State Research with Lightbox</u>	The twenty-two Lightbox books I'm requesting will be used during the 4th grade State Research District Assessment. Lightbox are digital titles that come with special features such as embedded videos, slideshows, child-safe weblinks, contextual key word definitions, and high-quality narration. Unique features of Lightbox enable students to virtually visit locations around the world with Google Maps. Lightbox also helps students learn with layered transparencies of maps, diagrams, charts, timelines and quizzes. Besides being interactive, Lightbox also allows several students to log on to the same book at the same time. This would allow teachers to have every student following along with classroom teaching at the same time making it possible to keep every student engaged during the learning process. While this purchase will be used specifically with 4th grade, it will also be available for any student to use and access in the library. These books are recommended for grades 2-5.
