

2022-2023 EPSF Classroom Grant Program- Arbor View Elementary School Grants

School	Grant Name	Description	Requestor	Grade	Amount
Arbor View Elementary	<u>Leveled Literacy Intervention kit--3rd grade (red)</u>	The Fountas and Pinnell Leveled Literacy intervention program is a reading intervention program that can be used by reading specialists, special education teachers, and classroom teachers during I/E. A few of the levels of this intervention program have been purchased for each building but we have gaps in the levels which makes consistent intervention challenging. This grant would be used to purchase the red LLI kit which is primarily used for 3rd grade students but could also be used by younger or older students based on their individual needs. The LLI program incorporates all of the five components of reading in each lesson and it is one of the approved reading intervention programs in our district. This LLI program would be used by the reading specialist and special education teachers daily in our building. We would love to have our own set since we are currently borrowing from another building to have access to these materials.	Kim Carbee	2nd-5th	\$ 5,776
Arbor View Elementary	<u>Fountas and Pinnell Leveled Literacy Intervention kit--Green</u>	I am requesting a green LLI kit which is a research-based reading intervention program. The green kit targets 1st grade readers and it would be used in the specialized reading program to assist struggling readers. The 1st grade year is critical to the reading development of our students and the green LLI program would be a wonderful resource to use with students. The program would also be used by the special education teachers and 1st grade teachers in the building as needed to meet their students' individual reading needs.	Kim Carbee	K-2nd	\$ 3,979
Arbor View Elementary	<u>Building With Stories</u>	The Building With Stories kit is designed to increase vocabulary understanding, print awareness, listening comprehension, communication independence, and word knowledge through 10 different stories. It will be utilized during a language group taught by the speech-language pathologist and resource teacher for students who are currently on an alternately paced curriculum/alternate assessment. The program will allow us to continue to support these students' understanding and use of language in a functional and fun way. Many of these students use assistive technology to increase their communication and this program provides lessons that support multimodal communication.	Grace Jensen	K-5th	\$ 520
TOTAL ARBOR VIEW ELEMENTARY SCHOOL CLASSROOM GRANTS					\$10,275
