Spring Ridge Elementary	<u>LG 75" TV and Vivi</u>	Currently in my classroom, I have an interactive whiteboard display unlike any other at Spring Ridge that has been causing issues for the past three years I have been teaching at Elkhorn Public Schools. My classroom grant project requests a new LG TV and a Vivi for the front of my classroom. I believe this would be a valuable addition because it would allow my classroom management to improve in ways my current board does not allow me to do so. With the TV and Vivi, I would be able to roam around the room rather than staying in one position at the front. Additionally, I am experiencing many glitches with my current board such as illegible writing and malfunctioning buttons. With the TV and Vivi, I would be able to spend more time on instruction and not fixing these glitches while teaching, which would help to maximize my students' learning. Overall, the TV and Vivi would resolve the problems that I have tried to solve countless times, but have struggled to do so. The new system would improve behavior, functionality, and educational outcomes in my classroom!	Leanna Klimisch	5th	\$ 1,605
